Your source for global mining news

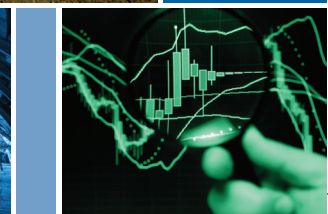

Over 150,000 daily digest subscribers

Commentary by leading industry analysts

Commodity charts and data

Worldwide mining coverage

MINING.com covers mining and mineral exploration, from majors to juniors. Look for coverage of base metals, precious metals, as well as reports from some of the leading mining jurisdictions throughout the world.

We publish commentary from some of the industry's leading analysts, like Jack Caldwell, Frank Holmes and Richard Mills.

Follow the industry news

MINING.com is our English edition that covers leading mining news throughout the world. Our flagship email publication, Mining News Digest, is published six-days a week.

Readers can also sign up for one of our commodity editions, like the Gold News Digest or Coal News Digest.

Our audience also speaks spanish and portuguese

We publish websites and digests in Spanish and Portuguese directed at the Latin American market.
